

Partners:

Tarun Gunampalli, tg25522

Naveen Ali, nna668

Current Project State:

[TarunGunampalli/Skinning \(github.com\)](https://github.com/TarunGunampalli/Skinning)

Things Completed:

- Saving state of skeleton (Naveen)
- Setting skeleton to a certain pose (Tarun)
- Slerping between poses (Tarun)

We have completed assignments 4 and 5 on time.

Issues:

- One issue we had in the recursion was that we changed the t value in the call so when we passed it in to the second call it was different, and the frame it accessed was different. We fixed this by making a new value for the value of t we want instead of changing it.
